

universität wien

Vienna, April 15, 2021

Applications are invited for

Two Postdoc and one PhD-student positions

starting in October 2021 or as soon as possible thereafter.

Postdoc appointments are for two years, the annual gross salary is approximately 55 k€. The PhD position is for three years, with a gross salary of approximately 31 k€. All positions come with no teaching duties.

The successful candidates will join the [Research Group on Applied Mathematics and Modeling](#) led by [Ulisse Stefanelli](#) at the [Faculty of Mathematics](#) of the [University of Vienna](#). The research focus of the Group is on calculus of variations and partial differential equations, often inspired by applications in continuum mechanics. Evolution equations, discrete systems, and stochastics are also of interest.

Applicants for the Postdoc and PhD-student position should have or be close to obtain a PhD or a Master, respectively, in Mathematics or Physics, as well as a strong background in calculus of variations and/or applied analysis.

Candidates are asked to submit their application [online at this page](#). A detailed CV and a short description of current scientific interests are requested, together with names and full contact addresses of at least two references (no letters needed). The PhD position is associated with the enrolment in the [PhD program in Mathematics](#) at the University of Vienna.

Applications are reviewed continuously, until positions are filled. A first evaluation round will start on **May 15, 2021**.
